

**DR. KWASI SARPONG AFRIFA  
ASPIRANT-NPP-USA CHAIRPERSON IN 2026**

**CAMPAIGN SPEECH — NPP-USA CHAIRPERSON 2026**

**Fellow Patriots — Executives, Chapter Chairmen and Chapter Chairwoman, and members of NPP-USA: I am Dr. Kwasi Sarpong Afrifa, Chairman of the New Jersey Chapter, a member of NPP North America since 1996, and a founding member of NPP-USA in 2006. With gratitude and conviction, I formally announce my candidacy for the position of NPP-USA Branch Chairperson in 2026. My mission is clear: rebuild this Branch, restore its strength, and help reclaim Ghana’s future starting in 2029.**

**NPP stands at a pivotal crossroads. Our flagbearer, Dr. Mahamudu Bawumia, has been chosen. The 2026 primary contest is over — consolidation of our party must begin now. Disunity cost us in 2024; it will not define us in 2028. We are one big NPP family — one flag, one flagbearer, one purpose. NPP-USA must lead that consolidation, not in words alone, but in bold, decisive action.**

**For over thirty years, the men and women of this Branch have poured their time, resources, and passion into building something meaningful on foreign soil. I honor that legacy. I do not come to erase it — but I come to build on it, with gratitude and humility.**

**Patriots, if we love this Branch, we must be honest with it. For too long, NPP-USA has run on potential rather than on performance — a sleeping giant held back by manual processes, fragmented fundraising, and weak accountability. That era must ends now. We**

**cannot win in 2028 elections with a 1992 mindset. I am not running to organize gatherings — I am running to win elections.**

**My vision is to transform NPP-USA from a well-meaning social club into the most productive, financially stable, and strategically formidable External Branch of the New Patriotic Party. When Dr. Bawumia needs his strongest voice abroad, NPP-USA must be the answer. Here is how we get there:**

**First, we will centralize our fundraising through our transparent NPP-USA Connect platform, backed by a Development Committee, Endowment Fund, Investment Committee, and a Grant Writing Team to keep us permanently election-ready.**

**Second, implement a cloud-based administrative and standard operating procedures so so that every Chapter operates with speed, transparency, and accountability. What once took weeks will done efficiently.**

**Third, no Chapter will be left behind. We will institute an Empowerment Grants and a Mentorship Program will lift every chapter to its full potential.**

**Fourth, we will establish an NPP-USA Policy Think Tank which will feed our expertise directly into the party's manifesto,. We will also champion the full implementation of ROPAA which will make absentee voting system a reality for Ghanaians abroad.**

**Fifth, we will expand TESCON-USA, recruit the next generation, and launch a Professional Support program to grow both careers and party capacity.**

**Patriots, this election is not about defeating fellow patriots — it is about serving them. Internal strife is the only force that can stop us in 2028. My leadership will be a bridge — open to every patriot, regardless of prior allegiance. We shall be aggressive against inefficiency and will unite with one another. We need to stop recycling the leadership of our party and elect individuals with good ideas to rebuild a formidable Branch and Party.**

**Patriots, I do not seek this office for a title. I seek to equip this Branch with the tools, structure, and unity it needs to deliver something historic. Let us build a Branch the mother party can rely on — for funds, ideas, strategy, and victory. Let us be the Branch that helps Dr. Mahamudu Bawumia with the 2028 elections and make NPP-USA the pride of the Elephant.**

**Fellow Patriots, join me, volunteer, and bring another member along so that we can win the 2028 election.**

**Please visit my campaign online at visit [www.drkwasiafrifa.com](http://www.drkwasiafrifa.com) for more information on my policies and ideas for the Branch.**

**God Bless NPP-USA!**

**God Bless NPP!**

**God Bless Ghana!**
